Home and School – Principal’s Report September 20, 2021

June Technology Funding Request Update

-Ms. Pinder’s requested funds for HDMI adapters to support new Teacher laptops
-we have gone ahead and ordered these and have paid for them out of the school budget (approx. \$50 each for total of \$800ish)

TVDSB’s Operational Plan 2020-2022

Goal One – Objective #1: Students are successful readers by the end of Grade 2.

Here’s How: We have purchased a school-wide Reading A to Z license and student licenses of Raz Kids for the majority of students K to Gr. 6 (approx. \$900).

Goal One – Objective #2: Students apply knowledge of numbers and operations to solve math problems in everyday life.

Here’s How: All teachers have been gifted with FREE Knowledgehook class licenses this year to support our students with the practice of rich math activities, processes, operations, and problem-solving.

Request – We would like to purchase MathUp licenses for our Gr. 1 to 6 teachers. Each teacher license is \$699 and is a perpetual license. It provides a complete math program (diagnostics, long-range plans, scaffolded student learning activities, assessments, next steps, etc.), is digital (which is a huge bonus in the event that there is a time that we need to move to remote learning), is continuously being updated and having new, real-life learning activities added (was recently updated to reflect the new Ontario Math Curriculum). NOTE: I have reached out to our Math Dept. to request assistance with funding this initiative. The school can pay for a couple of licenses.

Other

-Is there an opportunity to move the meeting dates to align with School Council meeting dates?
-History of Home and School vs School Council
